Dear ASEA-UNINET University Coordinators,

Dear ASEA-UNINET Partners,

Thank you for disseminating information on the open call for the **Ernst Mach Grant – ASEA-UNINET**. We have already been receiving enquiries by prospective applicants, and informational webinars are also currently taking place in some partner countries on the scholarship programme.

I am pleased to inform you about a new initiative at the **Vienna University of Economics and Business (WU)** regarding the Ernst Mach Grant – ASEA-UNINET. In the last few weeks, the team of the Competence Center for Emerging Markets and CEE at **WU** promoted ASEA-UNINET funding opportunities, specifically the Full PhD Grant, among their faculty. They specifically compiled a list of WU researchers who would like to supervise WU PhD/Doctoral students from Southeast Asia. The linked list (Password: "ASEA") includes information about prospective supervisors, departments and institutes, links to research profiles, and contact details. The link may be updated, and you may also find it attached if the link is not accessible to you.

**How this initiative benefits Full PhD applicants:** Usually, applicants need to enquire about prospective supervisors independently. However, in the case of this WU initiative, available professors are listed in the document shared to facilitate a suitable research fit between the WU faculty and prospective students. Interested postgraduate students may therefore contact their potential supervisors at WU directly, including an introduction, a very brief description of the research project, CV, publications, etc.

We kindly ask for your support in disseminating information on this initiative within your (partner) institution(s) among students and staff members!

If there are any WU specific questions, please feel free to contact our WU colleague, Dionisi Nikolov (in Cc).

As always, if there are any questions on the grant programme, do not hesitate to be in contact with me.

Best regards from Austria,

Wayu

Christoph Niederhauser, MSc

Programme Officer **Mobility Programmes and Cooperation**

เรียน อธิการบดี

ด้วย Wayu Christoph Niederhauser ตำแหน่ง Programme Officer, Mobility Programmes, Bilateral and Multilateral Cooperation ได้ขอขอบคุณสำหรับการประชาสัมพันธ์การรับสมัครทุน Ernst Mach Grant-ASEA-UNINET และแจ้งประชาสัมพันธ์โครงการ WU Supervision Initiative: Ernst Mach Grant - ASEA-UNINET ณ Vienna University of Economics and Business (WU) ซึ่งเป็นการให้เงินทุนสนับสนุนในระดับปริญญาเอกแบบเต็มจำนวน (Full PhD Grant) ภายใต้อาจารย์ในสาขาวิชาดังต่อไปนี้

1. Institute for Production Management
2. Institute for Responsibility and Sustainability in Global Business
3. Institute for Statistics and Mathematics
4. Institute for Nonprofit Management
5. Change Management und Management Development
6. Institute for European and International Law
7. Institute for Transport and Logistics Management
8. Institute for Communication Management and Media
9. Institute for Production Management

ทั้งนี้ผู้สนใจสมัครสามารถติดต่อตรงไปยังอาจารย์ที่ปรึกษา (Supervisor) ตามสาขาข้างต้น ณ WU รายชื่อดังเอกสารแนบหรือลิงก์ <https://cloud.oead.at/s/vFXhnuJOSwIcT/authenticate> (Password: "ASEA") พร้อมนำส่งเอกสารแนะนำตัว (an introduction) คำอธิบายโดยคร่าวเกี่ยวกับโครงการวิจัย (a very brief description of the research project) เอกสารประวัติส่วนตัว (CV) เอกสารที่เกี่ยวข้องกับการตีพิมพ์ (publication) และเอกสารอื่นๆ โดยสอบถามรายละเอียดเพิ่มเติมได้ที่ Dionisi Nikolov อีเมลล์ [Dionisi.Nikolov@wu.ac.th](mailto:Dionisi.Nikolov@wu.ac.th)

จึงเรียนมาเพื่อโปรดพิจารณา เห็นควรเวียนแจ้งคณะนิติศาสตร์ คณะบริหารธุรกิจ เศรษฐศาสตร์และการสื่อสาร คณะ **โลจิสติกส์** และ **ดิจิทัลแพลตฟอร์ม มณฑลวิทยลัย และวิทยาลัยนานาชาติ** **พร้อมเอกสาร** เพื่อประชาสัมพันธ์ต่อไป

ศโรทัยณี

Maier	Florentine	Department of Management	Institute for Nonprofit Management	What are the societal implications of commercialism and managerialism in nonprofit organizations, especially with regard to the fulfillment of nonprofits' societal roles as service providers, advocates, community builders, and schools of democracy?  What makes or breaks successful organizational democracy in nonprofit organizations? Why do some organizations with democratic internal structures operate successfully, while others with democratic structures fall short of their potential?  To answer these questions, we provide quantitative survey data (cross-sectional as well as longitudinal/panel data) from the Vienna Civic Life Survey and cross-sectional survey data from the global Civic Life of Cities Survey. More information about this data can be found here: <a href="https://civillifeofcities.org/">https://civillifeofcities.org/</a> We welcome candidates with a strong theoretical interest in critically examining nonprofit management and governance in the larger context of civil society and policy issues, as well as basic skills in quantitative methods and/or QCA using R and an interest in further developing these skills.	<a href="#">General Information</a>	Research Profile	florentine.maier@wu.ac.at

Wilhelm	Miriam	Department of Information Systems and Operations Management	Institute for Production Management	<p><i>"Who caught my fish?: Can traceability systems stop labour rights violations in fisheries?"</i></p> <p>Global fisheries governance faces two major sustainability challenges: how to ensure seafood products are both 'green' and 'ethical'. Fisheries governance is complex: seafood is one of the most traded commodities globally, with often long and difficult-to-trace supply chains. Fishing vessels are also the most dangerous workplace in the world, due to storms, accidents, handling dangerous equipment on a moving boat, and worker exhaustion due to long working hours and time at sea.</p> <p>An important mechanism for advancing decent work in fisheries is conditions is traceability in seafood supply chains. Traceability systems are seen as a promising governance mechanism to ensure the flow of information from seafood sources to consumers, and they are a precondition for supply chain interventions that aim to improve working conditions. Traceability by itself is not sufficient, as fishing governance has so far focussed on ecological sustainability, while labour standards often remain inadequate or poorly enforced.</p> <p><i>The EU has been promoting a 'Farm to Fork' ideology as part of the green deal policy, aligning with the corporate efforts to create traceability through private auditing schemes and green labelling. However, studies already show that consumers are becoming more critical toward these green labels and associate them with green washing. This project thus investigates how states can require mandatory the EU's new Mandatory Human Rights and Environmental Due Diligence Directive . These policies put both ethics and sustainability in global supply chains on the table for corporations to address, with significant consequences for those who do not meet the ethical and sustainability requirements.</i></p> <p>Thailand is one of the world's biggest exporter of processed seafood by value, and an important supplier of seafood to EU markets. The aim of the PhD project is to investigate traceability systems for seafood supply chains in Thailand that can reliably inform consumers both about the ecological and social impact.</p>	<a href="#">General Information</a>	Research Profile	miriam.wilhelm@wu.ac.at
