General information:

The grant programme is fully financed by the Ministry of Education, Science and Research (BMBWF). The selection process for all grants is competitive, i.e. there is no legal claim to a grant even if all application requirements are fulfilled. The number of grants that will be awarded during one call depends on the quota and/or the available budget. Applicants may apply for several grants simultaneously.

Applicants who seek admission to a Higher Education Institution in Austria have to contact the institution of their choice directly. The admission regulations of the respective institution are applicable.

Applicants who wish to come to Austria to conduct research (Postdoc Grant), and therefore do not need to seek admission to university, have to prove sufficient knowledge of the language they need to pursue their project.

The written consent of their Austrian supervisor is necessary.

Short-term grants (1 to 3 months) have a priority in the period from January to June. In other cases, problems can arise with regard to accommodation. When applying for a short-term grant, therefore, consideration should be given to applying primarily for the period of January to June.

Grant holders must be continuously present at their place of study in Austria to study or conduct their research project.

Once an application has been rejected, it will not be considered any further within the call. However, it is possible to re-apply for this grant with a revised application in the future.

Applicants must comply with the admission regulations of the respective Higher Education Institution.

It is strongly recommended to start the admission procedure at universities of the arts at the same time as the application procedure!

The application for a scholarship does not yet require admission to a University of the Arts.

The selection is based on a multistage process:

1. Examination of the formal requirements
2. Examination of the applications' general plausibility
3. Examination and evaluation of the applications by ASEA-UNINET experts
4. Assessment based on personal (face-to-face) interviews conducted by ASEA-UNINET experts. Criteria include language skills, quality of the Research Proposal, and relevance of the project
5. Final decision by the BMBWF

Applications in the field of Music Practice:

1. Examination of the formal requirements
