Flashnote - 2025 #07

In conversation with Professor Maria Leptin
President, European Research Council (ERC)

① Dear EURAXESS ASEAN Community,

The European Research Council (ERC), set up by the European Union in 2007, is the premier European funding organisation for excellent frontier research. It funds creative researchers of any nationality and age to run projects based across Europe.

The ERC offers 4 core grant schemes: Starting Grants, Consolidator Grants, Advanced Grants and Synergy Grants. With its additional Proof of Concept Grant scheme, the ERC helps grantees to explore the innovation potential of their ideas or research results.

In February, we had the privilege to welcome Professor Maria Leptin, ERC President, in Singapore. Professor Leptin was a speaker during the event "The Role and Importance of Frontier Research", organised by the National University of Singapore (NUS) and the EU Delegation of Singapore, and supported by EURAXESS ASEAN.

Together with our colleague from EURAXESS Japan, we had the opportunity to conduct a short interview with Professor Leptin after the event. We hope you will enjoy the conversation.

Lastly, for those within our research networks who consider applying for an ERC Advanced Grant, the call will open in May 2025.

Warm regards,

The EURAXESS ASEAN Team

ERC 2025 Work Programme - Calls

ERC Grants offer independence, recognition & visibility to:

- work on a research topic of your own choice
- gain financial autonomy for five years
- negotiate the best conditions of work with the host institution
- attract excellent team members and collaborators from anywhere in the world
- move with the grant to any place in Europe if desired ("portability of grants")
- win additional funding
