- Transnational education and skill development
- Internship programs aligned with the Belt and Road Initiative (BRI)
- Academic and vocational programs for higher education, institutes, and polytechnic certifications, including additional language courses.

The Friendship College Project aims to foster educational exchange, develop local talent, and support enterprise growth in **Thailand**. A dedicated budget has been allocated to ensure the successful implementation of this initiative. This project integrates universities and enterprises for studies and work placements in your country. Beyond this project, we also foresee potential collaboration opportunities in organizing joint academic conferences, workshops, and professional development programs to further strengthen academic partnerships.

Additionally, we would like to invite you to participate in our upcoming events:-

1. 2025 Global Chinese Language Competition
